

My First Webpage

Created by Professor Kirlin

This is my first webpage. It has a paragraph here. Here is some **bold** text, and some *italicized* text.

This is the second paragraph, and it separated from the first paragraph by a blank line.

This sentence starts a new line as well, but it's not separated from the previous paragraph by a blank line.

This is a link to [the second webpage](#). This is a link to [Rhodes College](#).
